Johnson Motor Yachts Australia will release their new 75 foot motor yacht at Sanctuary Cove International Boat Show. This new model will be third manufactured in the world to date. Johnson Motor Yachts have been building boats for over 20 years in Taiwan, and this year, under new importer ownership you will see the increase in presence of these world class Motor Yachts. They will bring to the show their new revamped "58 Advantage Series", with its extensive list of inclusions, not to mention the stunning attention to detail with the internal fit out.

They will bring the all new 75 footer, with its fully enclosed fly bridge, large array on inclusions and again its amazing internal fit out. This 75 was introduced to the World market at the Lauderdale Boat Show with tremendous accolades as well as sales achieved. The boat itself gives the appearance of an 80 foot plus motor yacht.

As well as the 75 footer there will be a 90 foot demonstrator for sale also to complement the range. Johnson also build their Motor Yachts in 103 foot lengths and have just announced the design completion and manufacturing commencement on their latest 124 foot yacht.

To coincide with this release and display of their new products, the CEO of the company Mr Andy Huang and Works Manager, Mr Frank Chyan, as well as an envoy of designers and staff will be making a special trip to the boat show to overview his product and Johnson Australia's inclusions and requirements we have placed on these boats.

Johnson Motor Yachts has the five sizes in their design range, but has a multiple of styles to these boats. Their clients can have a real hands on approach to their boat as well as all internal furnishings are done to the clients requirements'. Johnson Australia always suggest visiting the companies impressive facilities overseas to get a gauge of not only the workmanship but to see first hand up to 12 motor yachts side by side being built to various customer's world wide requirements.

Johnson Motor Yachts has always had very strong market in Europe, Russia and America, and the new importers are very confident of achieving the same success in Australia in a short time.
